

BRC QUARTERLY

Big Richards Company Quarterly Newsletter.

Issue one - April 2026

Letter from the Editor

THE BOSS

Dear Readers,

Thanks for picking up my potentially quarterly zine. I randomly was laying around one Sunday morning and decided It would be fun to spend my time making something where I could hone my creative skills and also update and document what i have been thinking about recently.

The inital theme of this is a fictional newsletter the Big Richards Company puts out, this is a play on the Big Richards Meatpacking Company, the name may change IDK. Its a bit loose right now but I want to explore it more in the future.

This wont be a perfect zine, but it will be fun. I hope you enjoy these ramblings and perhaps learn about something interesting or have a laugh. Ahead you will get to see some of the thoughts kicking around in this ole noggin of mine. Perhaps you will be able to make some order out of this madness.

All the Best,

The Apple Tree?

When we bought our house there was a tree growing really close to the corner by the garbage cans. I don't really know why anyone would plant a tree there. Our neighbors think it is an offshoot of a different tree, but I think it is an Apple tree that was planted there. Ultimately I guess it doesn't matter where it came from, it had to go. I decided to dig it up and replant it in my back yard far away from my house and foundation however when I got digging I made a mistake, as I was digging deeper I had cut a few of the roots off the main tree. I then began to actually think critically about it and I determined that I had cooked this tree, instead of digging up the rootball. I just cut all the main roots. Additionally I was about two feet deep and still going closer and closer to the foundation wall. I came to the decision to just cut the root as deep as I could and re bury the stump and cut my losses. So I did just that.

Since cutting this tree I have been haunted by it. It was just an organism trying to grow and it didn't pick where it would grow and it was doing quite well there. I had to cut it for the future growth would pose problems for both me and it. I told myself I would plant a new tree elsewhere in its memory. Is this too much? I'm not sure where I am going with this or why it weighs on me but it's in my mind.

Island Life

Kat and I went on a cruise and had a blast, here are some pics. I would go on another. Lots of Relaxing!

THESE ARE THINGS I HAVE BEEN WANTING TO GET EITHER BUY, MAKE OR DREAM OF.

THE MOST NOTABLE THING I HAVE BEEN WANTING TO GET IS EITHER A **RED POWERWIN** OR A **RED FORD LTD PICKUP**. ALTHOUGH I DON'T THINK I WILL BE BUYING ONE ANYTIME SOON.

I HAVE SEEN A TREND ON **INSTAGRAM** OF PEOPLE **MAKING HANDHELD CAMERAS OUT OF OLD SECURITY CAMERAS** AND **DRILL BATTERIES**. I THINK THIS COULD BE REALLY FUN. THE FOOTAGE ENDS UP LOOKING LIKE A **VHS TAPE**. (WHICH MAKES SENSE I GUESS) REGARDLESS IT LOOKS FUN

THE **IND IMAGINEERING 70 YEAR ANNIVERSARY SCOOTERY MICKEY PIN**. I GOTTA HIDE THIS ONE DOWN ON EBAY. BUT I DON'T WANT TO HEAR A PEEP ABOUT A **DISNEY PIN** BEING ON THIS LIST.

A **FLOORJACK AND JACK STANDE**. I USED TO THINK **HARBOR FRIEIGHT** WAS COMPLETE JUNK, AND IT TURNS OUT MOST OF IT IS. HOWEVER THERE ARE A FEW "PREMIUM BRANDS" THAT ARE DECENT AND A FEW BACKS CHEAPER THEN A NORMAL COMPUTER PART.

A **NEW TREE (OR 2)** AS NOTED ELSEWHERE I CUT DOWN A TREE AND WOULD LIKE TO REPLANT IT. I AM THINKING ABOUT A **CHERRY TREE** (FLORAL NOT FRUIT), A **FIRE MAPLE**, OR A **BIGTOOTH UTAH MAPLE TREE**. I AM OPEN TO SUGGESTIONS ON THIS ONE.

A FEW HONORABLE MENTIONS: **GARDEN BOXES**, A **CYBER DECK**, A **SHED**, **SHELVES**, **KITCHEN REFR**, A **PAIR OF NEW BALANCES**, **AVATAR FIRE** AND **ASH BLURAY**, SOME **NEW OXFORD SHIRTS**

FROM THE WORKSHOP

THE MUSTANG
I have gotten the mustang running, after it sat in my parents backyard for 11 years (Gee whiz I'm getting old). Anyways, It needs a new Radiator, although I may try to repair the current one. The Vinyl top is trapping moisture causing the roof to rust, its gotta go. The tires are rotting and need to be replaced. I have a exhaust leak, and the lifters could be gummed up/bad (Really hope not) This is pretty low on my list though, It runs and I can take it around the block. So I am happy with where its at right now. I mostly just need to save some money for parts

THE OLE TRAIL 90
The Trail has been running really well, (Its a Honda) I changed the oil last year, and its probably still fine, I don't ride it enough to need yearly ones imo. The headlights low beam is burned out, the taillight was to, but I was able to find a replacement at autozone. The head light is a specialty bulb

though I gotta get from Honda directly. There are a few odds and ends but this mostly just needs cosmetic stuff like a non ripped seat and a new downshroud etc. It has been a absolute blast to buzz around town on though. Running quick errands on this rules and its really a fun little ride.

THE HIGHLANDER
Doing good! Its got some quirks but nothing worth worrying about!

God Is In The Garden

I haven't gardened since highschool but I think as you get older you generally want to begin gardening. It wsnt bad when I did and I think I have a good cassy amount to start. We are growing lettuce, jalapenos, onions, zucchini, tomatoes (for Kat) and a few flowers. If it goes well I will scale up next year.

Kat is wanting to plant fruit trees in our yard and I am a bit hesitant. It seems like if they arent properly taken care of they get worms and the fruit falls into the grass and gets stepped on and mushy. I have a weird thing where I would like to be able to lay in the grass anywhere in the yard and it just doesnt jive. However I am open to recieving mail and opinions on the matter so please write in with your thoughts on the matter. I feel morally obliged to plant at least one tree.

AVATAR FIRE AND ASH - The Sully Family faces not only the RDA, but the Mangwa Clan as well. They also are dealing with Neteyams death and spiders outsider background. Great action movie and I think the 4th was just green lit so we are eating good! - 5 bags of popcorn

My Current Top 5 Movies are

1. Fellowship of the Ring
2. Whisper of the Heart
3. Little Women (1994 Version)
4. Lawrence of Arabia
5. Big Trouble in Little China

Book Report!

Since the beginning of the year, I have read:

1. A Memory of Light (Wheel of time 14)
2. New Spring (Wheel of time 0 (prequel)
3. All The Pretty Horses
4. Breakfast of Champions
5. The Will of the Many
6. The Assassins Apprentice

The Wheel of Time series was a absolute blast, Its really long but it pays off in the last 3 books. ATPH was good as well, the author was incredible with the way he described scenes, it read like poetry quite often. BOC was quite fun, I enjoyed reading this on the cruise. Lots of laughs and fun moments. WOTM was a snoozer for me. Do not recommend it. TAA was really good though I do highly recommend it, It would be a good book to read if you are trying to get back into reading.

Currently Reading Mistborn and The Night Circus

ODDS AND ENDS

I am hoping to recruit my good ole pal Jake welch to help me tackle a secret printer project, Hopefully I will have a update next issue.

My Favorite pieces of Disney Trivia are the following.
What was Walt Disneys last words? "Kurt Russell"
What was Mickey Mouses First words? "Hot Dog"

Kurt Russell is one of my favorite actors because he reminds me of my Dad.

I am also planning a VHS Project, It depends on if I can get my hands on a VHS player and figure out a good way to get it hooked up to a capture card, But I would like to build a archive of VHS rips. I think the bad audio and resolution are really charming. I have a link to the first harry potter movie if anyone wants to check it out.

Lewis and Clark have always been inspiring to me, Growing up I often wish I would have lived in the era when there were still unknown lands. I am glad I live now. But I part of me has always wished I could have explored a new land.
